

12/2017 - College Panel at Plainsboro Library

Students from University of Pennsylvania, Rochester Institute of Technology (RIT), Vanderbilt University, and Northeastern University came home from college over the winter break, and volunteered to sit on our first College Panel on Tuesday, Dec 26th 2017. This public event took place at the Plainsboro Public Library in New Jersey from 1-2pm. Oliver Chiriac, the president of the National Student Council, moderated the discussion and high school students and parents asked questions to compare and evaluate student experiences at these colleges. The event was extremely well received, so stay tuned as we will be planning more of these in the future!
